

West *Meets* Western China

SelectUSA at the Western China International Fair

September 21, 2012

Chengdu, China

Calling All State Offices!

Showcase your state's investment opportunities at one of China's most widely attended trade exhibitions. The U.S. & Foreign Commercial Service invites you to take advantage of this exceptional platform to promote investment to the U.S. in front of company executives, decision makers and top ranking government officials from twelve West China provinces.

Since the Western China International Fair was established in 2000, it has been one of China's most successful state-level fairs for contracting investment. Last year West China's provinces signed 1,565 projects with a total worth of \$150 billion. This year SelectUSA is teaming up with the Sichuan Provincial Department of Commerce to introduce eager Chinese investors to the vast investment opportunities in the U.S.

We invite State Representatives and Economic Development Offices to take advantage of this unique platform to present your state's major development projects and meet one-on-one with interested investors.

Does your state want to promote a particular industry? Let us know your target investment sectors so we can provide the best matches for you! For more information contact the Commercial Service Chengdu.
